ABOUT ME

Recent graduate of Savannah College of Art and Design with major in Industrial Design, minor in UX design. Passionate about thoughtful and innovative product design, user-interface design, accessibility. Committed to sustainable design practices and user-driven human factors. Highly collaborative and adaptable, looking to contribute in a design-driven company. My Senior Project, a collection of sustainable, articulated wooden toys, was selected for display in the SCAD permanent collection.

- Was a member of the winning teams on numerous design challenges including SCAD Pro projects (working with external companies on new designs and concepts) and an annual life-sized model-making challenge "Hardcore Foamcore."
- Fluent in all necessary 2-D, 3-D, and collaboration software
- Skilled in organizing and delivering pitches and presentations on all timelines
- Accomplished illustrator and sketch artist, experienced with rapid prototyping
- Able to contribute insights to teams to evolve and improve concepts
- Adaptable in incorporating new factors in fast-changing or ambiguous environments
- Experienced in innovative materials and emerging design technologies
- Able to adapt new concepts to existing design language and/or brand standards
- Experience with incorporating AI as a tool in the design process
- High EQ and communication skills (written and spoken)

EXPERIENCE

Digital Communications Manager
CATALYD, San Rafael, CA

Nov. 2018 - Present

I manage all digital communication needs: website updates, social media posting, slide presentation creation, graphic design, collateral creation, and tutoring computer software programs. I work remotely during the school year.

Graphic Designer
OVADIA Creative, Novato, CA

2013 - 2018

Since early highschool I've been producing freelance art for various paying clients: logo and brochure design, posters, animation, paintings, clothing, album covers and even tattoos.
